

NEW PRODUCT LINE

GrapeCity Documents

Take total control of your digital documents with this NEW collection of ultra-fast, low-footprint document APIs for .NET Standard 2.0. These intuitive, extensible APIs allow you to create, load, modify, and save Excel spreadsheets and PDF files in any .NET Standard 2.0 application

DEPLOY
TO **AZURE**

.NET

Expand the reach of modern apps

With full support for .NET Standard 2.0, you can target multiple platforms, devices, and cloud with one code base.

High-speed, small footprint

The API architecture is designed to generate large, optimized documents, fast—while remaining lightweight and extensible.

< >

Comprehensive, highly programmable

Do more with your Excel spreadsheets and PDFs: these APIs support Windows, Mac, Linux, and a wide variety of features for your documents.

No dependencies

Generate and edit digital documents with no Acrobat or Excel dependencies.

- .NET Core 2.0
- .NET Framework
- Mono
- Xamarin iOS
- VSTO-style API

Security

- Encryption and decryption
- User and owner passwords
- AllowCopyContent, AllowEditAnnotations, AllowEditContent, AllowPrint
- Digital Signatures

Annotations

- Figures
- Comments
- Text
- Signatures
- Stamps
- Modify, extract or delete annotations from existing PDFs

Fillable Form Fields

- Textbox
- Checkbox
- Combobox
- Listbox
- Radio button
- Push button
- Signature field
- Modify, extract or delete form fields from existing PDFs

Navigation

- Outlines
- Hyperlinks

Additional Features

- 50 barcodes and properties
- Create PDF/A files
- Maintain document history with document properties
- Generate linearized PDFs for fast web view
- Full image and graphic support on all platforms
- Add and delete pages
- Change page sizes
- Page orientation

GrapeCity Documents for Excel

Generate high-performance Excel spreadsheets with no dependencies on Excel! Generate, convert, calculate, format, and parse spreadsheets in any app.

Fast and Efficient

- Lightweight
- Optimized for processing large Excel documents quickly

Cross-Platform, Cross-Framework compatibility

- .NET Standard 2.0
- .NET Core 2.0
- .NET Framework
- Mono
- Xamarin.iOS
- VSTO-style API

Data Visualization

- Shapes and pictures
- Slicers
- Sparklines
- Charts

Powerful Calculation Engine

- 450+ Excel functions
- Calculate
- Query
- Generate
- Sorting
- Filtering
- Grouping

Seamless Excel Compatibility

- Import and export Excel files
- Export to PDF
- Encrypt files
- Workbooks and worksheets
- Cell range operations
- Pivot and Excel tables
- Data validation
- Annotations
- Comments

Conditional Formatting Rules

- Cell value
- Average
- Color scale
- Data bar
- Icon sets
- Top and Bottom
- Unique
- Expression

Flexible Themes And Components

- Customizable themes
- Configurable components
- Summary data
- Custom styles
- Embedded drawing objects
- Integrated calculation engine
